WORK EXPERIENCE (2)

Frontend and Shopify developer at Bright Coders Academy / Untitled Project **January 2020- July 2020**

<https://www.brightcoders.com>

I coded half of the front page and shopify's 'backend' for the online store to the Untitled clothing brand.

Web Developer at Nebusens **October 2017- February 2018**

<https://www.nebusens.com.mx/>

This project for the company consisted of organizing its website so that they could see the statistics obtained from a vehicle geolocation sensor in a simplified way. The duration was 2 months and it was a very exciting and challenging project to do where I learnt HTML, CSS and JavaScript.

- I helped with some features of the web site
