My name is Jose Peregrina and I'm 22 years old, I consider me a person who have a big interest about the technology, software and machines and I prefer the idea of "teach yourself". I studied a bachelor degree in Universidad de Colima about Software Engineer. I like work in team because it gives you a lot of opportunities to learn, sometimes when your teammates give help to you and others when you help them.

WORK EXPERIENCE (1)

Bright Coder at Bright Coders/Donadores compulsivos project **January 2020- June 2014**
https://www.magmalabs.io/about-us/

I worked like a mobile developer using react-native framework around six months. I created some user interfaces and redux's reducers. Besides to pass data from the reducer to firebase API and vice versa. Also I did a little bit of unit testing with Jest.js

- Trainee

EDUCATION (2)

Bachelor Software Engineer at Universidad de Colima
2016 - 2020

k801 - ingeniero (a) de software

Grade: 8.29
