I am a senior in University. Software engineer student of Telematics School of the University of Colima. My favorite branch of software development is web development. I am very passionate about everything related and I like to learn a lot about it, like learning new tools, techniques and good practices. The practical experience that I currently have developing software I got it by developing some projects at the university as part of my subjects and also the experience within the Brightcoders Academy. I can finally say that I am a person who likes challenges, problem solving and hard work.

TECHNICAL SKILLS

Web Development
Competent

html   css   javascript

Ruby
Competent

ruby

Ruby on Rails
Competent

ruby   ruby on rails   sass

postgres   rspec   capybara

web development

React
Advanced Beginner

react   web development

PHP
Competent

php   web development

Git
Competent

git   github   gitlab

codecommit

AWS
Advanced Beginner

s3   ec2   codecommit

codedeploy   iam

Mobile Development
Novice

react native

SOFT SKILLS

Teamwork
Acquired

teamwork

Responsibility
Acquired

responsibility

Adaptable
Acquired

adaptable

Creative
Acquired

creative

Analytical
Acquired

analytical

Tactful
Acquired

tactful

WORK EXPERIENCE (3)

Web Developer at Bright Coders Academy **January 2020- June 2020**

https://www.brightcoders.com/

I worked developing a web application for the association of 'Donadores Compulsivos' using Ruby on Rails, Sass and Javascript. I worked on both the backend and the frontend. I also worked on creating an api to serve services to a mobile application.

- Started working on my first real project with a client, working on a company

Backend Developer at CRREAD COLIMA **March 2019- December 2019**

I developed the backend part for Patient Tracking Platform for the CRREAD of Colima. CRREAD is an association that helps people with drug addiction and alcoholism problems. The platform helps in the patient treatment processes.

- Started working with a real client

Web Developer at University of Colima **November 2018- December 2018**

I developed a simple Virtual Assistant with DialogFlow and PHP that showed information about the careers of a University. The work I did was to classify the JSON data received from DialogFlow in PHP to get data from a database to generate answers for the assistant.

- Created my first virtual assistant

EDUCATION (1)

Bachelor Software Engineer at University of Colima
2016 - 2020

platzi - react course   platzi - course on creating apis with ruby on rails   platzi - git and github professional course

codigofacilito - ruby on rails introduction course   codecademy - learn ruby

Grade: 9.2

AWARDS

Beca de Excelencia Académica 'Prof. Ruben Vizcarra Campos' at University of Colima
2018

The highest gpa of the software engineering career semester.
